

# Hatsgiving

hatsgiving.org | info@hatsgiving.org

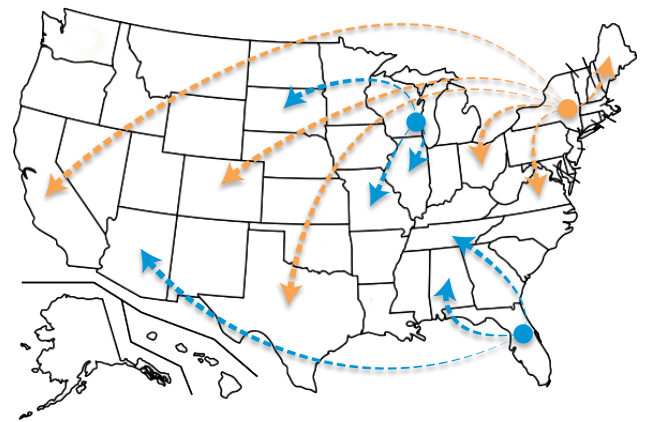

## Hatsgiving is ...

a project to collect soft, warm, winter hats for pediatric cancer patients. Hatsgiving is a registered 501c3 charity that relies on donations and volunteers to continue growing and reaching pediatric cancer patients around the country.

## Where the hats go

All of the hats collected will be distributed to cancer patients at regional pediatric cancer treatment centers. Since 2013, Hatsgiving has distributed more than 26,000 hats to about 80 different pediatric cancer treatment centers in 46 states and DC.

## How to help

Bring new winter hats, sizes newborn to adult, to any Hatsgiving collection site. Hats may be store-bought or handmade. Visit our website or contact your local Hatsgiving representative for details and locations.

The Story of Hatsgiving

Every 3 minutes a family is told their child has cancer. 1 in 285 children will be diagnosed with cancer before their 20th birthday.

Source: American Childhood Cancer Organization

In 2012 Jeremy Wernick, a 4th grader, shaved his head for the second time to raise money for childhood cancer research. It really got him thinking about kids who lose their hair during cancer treatments. So he created Hatsgiving. The first official collection was held in 2013. Each year, Hatsgiving continues to grow thanks to all of the wonderful, warm hats that are so graciously donated.

## HATS DELIVERED

26,425 and counting!
